## About NIT Goa

The National Institute of Technology Goa (NIT Goa) is a premier national-level technical institute in India established in 2010. NIT Goa is an autonomous institute functioning under the aegis of the Ministry of Education (MoE), Govt. of India, and has been declared an "Institute of National Importance". The institute is dedicated to its academic excellence and aims to produce quality engineers and scientists. The institute offers undergraduate and postgraduate programmes in the engineering disciplines. The institute also offers Ph.D. degree in various streams of Engineering, Sciences, Humanities, and Social Sciences.

### About the Conference

The International Conference on Magnetic Materials and Applications (ICMAGMA) is a prominent event organized by the Magnetism Society of India (MSI) in association with other academic and research institutions. This conference serves as a flagship platform for knowledge sharing and fostering innovation in the field of magnetism, magnetic materials and its applications. The objective of the conference is to provide an ideal platform for all those pursuing a career in magnetism, magnetic materials, and applications to come together, discuss, disseminate, and assess the recent developments in the area of magnetism.

The 9<sup>th</sup> edition of the International Conference on Magnetic Materials and Applications (ICMAGMA-2026) is jointly organized by the National Institute of Technology Goa (NIT Goa) and the National Institute of Technology Warangal (NIT Warangal), in association with the Magnetism Society of India (MSI). The event will take place from June 3–5, 2026, at NIT Goa, Goa, India.

ICMAGMA-2026 will feature a broad spectrum of topics in magnetism, including plenary sessions, invited talks, oral presentations, and

poster sessions. The conference is expected to attract over 500 delegates from India and abroad, providing an excellent platform for networking, collaboration, and knowledge exchange in the field of magnetism, magnetic materials and applications.

Through this endeavor, the conference aims to disseminate awareness among young researchers, faculty, scientists, technologists and industrialists about the latest advancements in magnetism and related applications.

### Topics

- Soft and Hard Magnetic Materials
- Magnetic Recording, Memory and Spintronics
- Magnetic Thin Films, Functional Magnetic Materials
- Magnetic Particles and Nanostructures
- Fundamental Magnetic Properties and Co-operative Phenomena
- Novel Magnetic Materials and Device Applications
- Modeling and Simulation in Magnetic Materials
- Interdisciplinary Topics in Magnetism
- Magnet Industry and Products
- Additive Manufacturing of Magnetic Materials

### Submission of Abstract and Full Paper

Abstracts should be submitted online. Publication of the full papers presented in the conference will be done in a suitable journal after peer review. Details will be updated in the conference website

### Awards

Best posters from each session will be awarded during the concluding session

### Accommodation

The details about accommodation and tariff are provided in the conference website
